# PRODUCT OVERVIEW

BANYAN PRO is a "Talent development system" designed for learners with rich features. It built to enable learner centric design which focuses on enhancing individual skills on a given competency. Banyan pro is built to provide our mastery learning framework "Check-Learn-Do-Certify".

Banyan pro is the future of talent development system for your organization to identity and hire right talent, provides outcome driven skilling to deliver your business.

# Designed for Identifying Right talent and providing Right skilling

# SYSTEM FEATURES

# Key features built based on Adult Learning Principles

# INTUITIVE DASHBOARD & ACTIONABLE INSIGHTS

Role based intuitive dashboard designed for quick access of actionable insights.

## LEARNING PATH

Inspire learners to achieve goals by enrolling them in learning paths and reward their accomplishments with certificates. Supports "Organization Mandate Learning Path" and "User created learning Path".

# DIGITAL CONTENT LIBRARIES

**Digital Content Library** - Store digital contents in Banyan pro and author a course to share it across the web.

# TRACK LEARNING PROGRESS BASED ON MASTERY

Create courses based on our learning framework - CLDC ("Check-Learn-Do-Certify") and track the learning progress of the individuals and show the progress to learners for their action.

#### C Programming For Beginners - Overview

Content

🛅 General

Delivery Type

**Competency Level** 

**Course Duration** 

Course Credit

Course Author

C is a procedural programming language. It was initially developed by Dennis Ritchie between 1969 and 1973. It was mainly developed as a system programming language to write operating system. The main features of C language include low-level access to memory, simple set of keywords, and clean style, these features make C language suitable for system programming like operating system or compiler development.

# TRY IT YOURSELF

Humanize the whole Online Training project, with a real face-to-face approach and a real time responsiveness.

# **GITHUB/SLACK INTEGRATION**

We've built a Banyan pro to tightly integrate with GitHub. So you don't have to manually update your coding progress all the time. This will make your GitHub contribution and digital footprint greener.

Slack provides a great place to communicate and collaborate on tasks. It's where the people

you need, the information you share, and the tools you use come together to get things done.

# VIDEO CONFERENCING

Deliver webinars, training programs and QA sessions with SME (Subject Matter Expert) through Video Conference.

Conference		
O MAANTT		

### DIGITAL BADGES

**Digital Badges** - Do you want to recognize an achievement or illustrating skill accumulation?, Open digital badging makes it easy for anyone to author, issue, earn and display across the web.

# CUSTOM DIGITAL CERTIFICATES

Digital Certificates - Digital certificates from Banyan pro can provide proof for an employer,

or schools or other business institutions that you have successfully completed Course, Learning Path or Quiz.

# PEER LEARNING THROUGH COLLABORATION

Learners can collaborate with their peers using discussion forums, chat and messaging

features.

# SEARCH & BOOKMARK

Narrow and sort search results for exactly what you need and bookmark courses for future learning.

# REPORTS FOR RICH INSIGHTS & ACTIONABLE INFERENCES

Role based access to insights and inference of the learning progress. Supervisors can access insights quickly and provide timely feedback to his team to drive business results.

The associate needs improvements on Dom Manipulation using ngFor Repeater and Routing and Navigation .

The associate has demonstrated partial understanding on Handling Service using Http and Rxjs.

The associate has very good understanding and demonstrated skill on Package Dependency

Basic	Limited knowledge and skill in cooling and development
ntermediate	Good knowledge and skill in coding and development
Advanced	Highly skilled individual with strong knowledge in coding and development

# AS A SUPERVISOR

View comprehensive dashboard of your team progress. Enables you to help the team to learn and implement technology in demand, encourage continuous skill development.

# COURSE/ASSESSMENT WORKFLOW

Provides simplified course creations workflow for course authoring and comprehensive certification creations for a better assurance. Support check-learn-do-certify (CLDC) framework based course structuring.
